Trading Partner Testing

Trading partners will be unable to test prior authorization scenarios. ODM will include all prior authorization testing in its UAT work.

Suggested Testing Scenarios	What is being tested?
Submit clean claims for services without service limits (audits, PA) or provider restrictions	Coverage and pricing
Submit clean claims for services without service limits (audits, PA) that require the NPI of the rendering provider	Coverage, pricing and provider requirements
Submit clean claims for services without service limits (audits, PA) that require a modifier for a non-enrolled rendering provider and the NPI of a supervising provider	Coverage, pricing and provider requirements
Submit clean claims for services without service limits (audits, PA) that require a modifier for a non-enrolled rendering provider	Coverage, pricing and provider requirements
Submit clean claims for services without service limits (audits, PA) that require the NPI of the rendering provider and the NPI of the ordering provider	Coverage, pricing and provider requirements
Submit clean claims for services with service limits (audits) up to the limit; then submit claims that will exceed the limit to test the audit	Coverage, pricing and service restrictions

Supervisor and the 837

ODM guidance at this time:

- Report supervising practitioner at the header level only: Loop 2310D
- Do not report supervisor at the detail level (2420D)
- Report only one supervisor per claim
- Do not report supervised services with services that do not require supervision – this could result in incorrect adjudication

Billing Example: Correct Reporting of Supervisor

- Supervisor reported at header applies to all detail lines
- Claim will pay based on the supervisor's rate

Header Level		
Supervisor	Rendering	Billing Provider
Supervisor NPI	-	Agency NPI

Detail Level								
Line #:	DOS	Code	Units	Modifiers	Rendering	Supv	Ordering	Prior Authorization
1	7-2-17	90839	1	U9	-	-	-	-
2	7-2-17	90840	2	U9	-	-	-	-
3	7-10-17	90839	1	U9	-	-	-	-

Billing Example: Incorrect Reporting of Supervisor

- Supervisor reported at the header applies to all detail lines
- Services that are not performed under supervision should not be reported on the same claim – the claim may adjudicate incorrectly

Header Level		
Supervisor	Rendering	Billing Provider
Supervisor NPI	-	Agency NPI

Detail Level							
Line #:	DOS	Code	Units	Modifiers	Rendering	Supv	Ordering
1	7-2-17	90839	1	U9	-	-	-
2	7-2-17	90840	2	U9	-	-	-
3	7-10-17	90839	1	U9	-	-	-
4	7-11-17	90839	1	-	LISW NPI	-	-
5	7-12-17	90839	1	-	RN NPI	-	Ordering NPI

Update to 837P Companion Guides

- Supervisor NPI should always be reported at the header – do not report the Medicaid billing ID
- Report the Supervising Provider Name (NM1) and Supervising Provider Identifier (NM109) as shown below

Loop ID	Reference	Name	Codes	Notes/Comments
★ 2310D	NM1	Supervising Provider Name		Provider must be enrolled with Ohio Medicaid
★ 2310D	NM109	Supervising Provider Identifier		Provider NPI
2310D	REF	Supervising Provider Secondary Identification		ODM generally expects Supervising Providers to be 'Typical' Providers
2310D	REF01	Reference Identification Qualifier	G2	Provider Commercial Number
2310D	REF02	Supervising Provider Secondary Identifier		Atypical Provider ID assigned by ODM (Medicaid Billing ID)
